

## Naperville Heating and Cooling Service Checklist

Below you find a list of items to check before your technician arrives to service the furnace or air conditioner.

- ✓ What is the brand and/or model number of your furnace or air conditioner?
- ✓ What is age of your furnace or air conditioner?
- ✓ When was it last serviced and who last serviced it?
- ✓ Did you check your circuit breakers to make sure none were “tripped”?
- ✓ When the filters were last changed?
- ✓ When you first noticed that it seemed to not be working properly.
- ✓ Are there any unusual odors?
- ✓ Was it making any unusual noises?
- ✓ Any unusual fluids or leaking around the unit?
- ✓ Was there any unusual weather activity before the equipment acted up?
- ✓ Have heating and air equipment installed and serviced by a NATE-certified HVAC technician.
